

Finance Director - AIM

PLC Finance Director • £80,000 plus benefits • Central London

Our client is an international, AIM listed service group plc, with a circa £20m turnover and clients spanning a variety of sectors from pharmaceuticals to property. With a pan-European focus and excellent commercial awareness they have built a reputation for efficient delivery of high quality projects, cementing their position as a market leader.

The role:

Reporting into the board and Chief Executive, the Finance Director takes ownership for the full group accounting function in both the UK and EMEA. Responsibilities include system implementation; the production of group interim and final reports to UK GAAP and IFRS standards; strategic advice on how to grow the business, including fee level and contract negotiations; reviewing M&A activity, and co-ordinating investor relations.

The candidate:

You will have experience of step change/growth, ideally gained within a small cap European business. An understanding of an AIM listing would be beneficial but not essential.

As a genuine decision maker you will drive change in this hands-on environment. You will be an excellent communicator with an aptitude for explaining complex financial issues in a non-financial environment.

Please respond in confidence, quoting reference FT/CXW/65 , to our retained consultants Christian Williams or William Scrimshaw at Finance Professionals.
