

Fujitsu is the third largest IT company in the world, with an annual turnover of more than £1.7bn. Around the world, the Fujitsu name stands for advanced technology, quality, creativity and reliability. Fujitsu Services is a leading provider of customer-focused information technology. We design, build and operate IT systems and services for large scale clients in both public and private sectors. Our core strength is the delivery of IT infrastructure management and outsourcing services across desktop, networking and data centre environments.

Group Accountant

c.£40,000 + excellent benefits, Slough

- Develop, implement and maintain group-wide reporting systems including Hyperion
- Review complex transactions such as acquisitions and disposals from a group perspective
- Review monthly consolidated results and variance analysis, as well as analysis of all aspects of balance sheet and cashflow reporting, again from a group perspective
- Take ownership for the consolidation of the group's budgeting and forecasting activities
- Act as first point of contact for technical and procedural queries and offer support as appropriate
- Liaise with external auditors, as well as other specialist functions such as tax and treasury and group businesses
- Presenting UK GAAP updates to senior level management

We are looking for an enthusiastic and personable recently qualified ACA. You will be an experienced technical accountant with a comprehensive understanding of UK GAAP, and preferably with some exposure to International Accounting Standards. You will need to demonstrate the ability to gain respect at all levels of the business and operate as a team player.

Finance Professionals is acting as an employment agency and is a division of PRO Ltd.

Tax & Treasury Accountant

c.£43,000 + excellent benefits, Slough

- Ensure that the financial transactions and positions of the tax and treasury function are accurately reported, analysed and valued in accordance with accounting policies and applicable GAAP
- Report on the value of treasury cash and risk management activities and related performance measures
- Provide accounting support for customer finance programmes
- Ensure that hedging instruments are properly accounted for to achieve hedge objectives and strategies
- Work with the systems manager to develop utilisation of treasury management systems, interfaces and valuation techniques
- Prepare the tax provisions for UK companies, reconcile and present any movements to management

A qualified ACA or ACCA (with a minimum of 2 years' PQE) is required to manage our tax and treasury accounting activities. Previous experience of accounting for treasury operations, with a good understanding of current UK and international GAAP, as well as a good understanding of tax accounting, is essential.
