

# Management Accountant

## Circa £45,000, City of London

With over 150 retained corporate clients, Seymour Pierce is a leading provider of corporate broking and corporate finance services to smaller quoted companies. Seymour Pierce has strong research and corporate finance expertise in the media, mining, support services, telecoms, technology, retail, life sciences and oil sectors, and has led over two hundred primary and secondary issues since 1st January 2004, raising in excess of £625m for their corporate clients. The company's head office is in the heart of the City of London.

A high profile opportunity has now arisen to join this diverse financial services business as a management accountant, playing a key role in the finance team. Working closely with the financial controller, you will liaise with the front-office team and members of the finance department to ensure that the budget, forecasting and management accounts are produced in a comprehensive and timely manner. Other responsibilities will include the preparation and submission of the FSA returns, preparation and input of journals, accruals and pre-payments, and VAT and corporation tax calculations. Analytical in your approach, you will also have the flexibility and capability to respond to a number of ad hoc requests for information from senior management.

A qualified accountant with up to three years' PQE gained in a financial services environment, you will be experienced in the preparation of management accounts and have good systems knowledge. You will possess strong communication skills and the drive and energy to take on new challenges within an exciting and growing business.
